Good luck !

Final exam

Using Bootstrap 4, create a web page based on the criteria described in the following questions.

Question 01

/3

Create a Jumbotron stating your name.

Question 02

/3

Create a container (960 pixels centered horizontally).

Question 03

- a) In a row, create two containers side by side containing different background colors (using Bootstrap contextual colors). /2
- b) In medium browsers, the first container should use 8 columns and the second one 4 columns. /2
- c) In small browsers, the two containers should be full width (12 columns) and be stacked one over the other. /2

Question 04

/2

In the left container, use the sentence «Final exam» in a heading and the word «Now» in a badge.

Question 05

/1

Under the heading, write a short sentence in a paragraph and use text contextual color to make it red.

Question 06

/2

In the right container, insert an image downloaded from the Internet and make it circle shaped.

Question 07

/4

In a second row, create a tab navigation with 5 menu items.

Question 08

/4

In a third row create a form containing (with labels): a text field, a 2 items radio button list and a submit button.
